-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-4 and 9, drawn to a tablet for oral administration that disintegrates quickly.

Group II, claims 1, 5, and 6, drawn to a tablet for oral administration that disintegrates quickly wherein it has a flavoring agent.

Group III, claims 1 and 7, drawn to a tablet for oral administration that disintegrates quickly wherein it has a humidity adsorbing agent.

Group IV, claims 1 and 8, drawn to a tablet for oral administration that disintegrates quickly wherein it has an anti-adherent agent.

Group V, claims 1, 10, and 11, drawn to a tablet for oral administration wherein said tablet has a round shape and is flat and bevelled.

Group VI, claims 12-14, drawn to a process for obtaining a tablet for oral administration.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature in all groups is a tablet for oral administration that disintegrates quickly comprising mannitol, microcrystalline cellulose, croscarmellose sodium, and a lubricant. Martani (WO 01/12161) teaches a tablet for oral administration that disintegrates quickly

comprising mannitol, microcrystalline cellulose, croscarmellose, and a lubricant (see page 11, third full-paragraph – page 12, first full-paragraph).

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should Applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
